

The TK 1000 series - compact innovation

Robust, cost efficient, and adaptable to your applications

The TK 1000 series - Benefits, data, features, and options

Benefits at a glance

- Compliant with Tier 4 Final
- Updated and reinforced frame
- Galvanized brackets, hood components, and frame parts to improve corrosion protection
- Fiberglass reinforced side covers and doors
- Noise reduction design
- Updated Ergonic 3 PS (pump system) with new memory function

At home wherever space is tight

The compact multi-purpose concrete pump, equipped with a Deutz diesel engine with Tier 4 Final emissions or an electric motor, is suitable for flexible use on smaller and compact construction sites - wherever space is in short supply.

Dimensions

VARIABLE VOLUME CONTROL	0 to full				
HYDRAULIC TANK CAPACITY	12 gallons (46 L)				
HOPPER HEIGHT WITH Rubber Collar	4' 11" (1489 mm)				
HOPPER HEIGHT WITHOUT RUBBER COLLAR	4' 2" (1276 mm)				
HOPPER CAPACITY (approx.)	300 L (10.6 ft ³)				

Standard features

- 2nd E-Stop
- Agitator safety switch-off (RFID)
- Automatic speed reduction at pump stop
- Central hopper lubrication, grease gun
- Chassis, Single Axle for highway, electric brakes
- Cold start system
- Concrete hopper with agitatorDelivery pistons "LongLife"
- Display cover for control cabinet
- Hyd. Oil, HLP 46
- Level indicator diesel tank, electrical, with low level warning, visually
- Lift Points (4x)
- Low level warning hydraulic oil, visually
- Output volume control electrically
- Paint Putzmeister yellow & gray
- Plunger cylinder cover, plastic
- Pressure connection 5" HD
- Radio remote control with output adjustment
- Remote control cable (10 m)
- Splash guard folding
- Hopper light & rubber collar
- Support legs, 3x mechanical
- Support wheel

You can rely on Putzmeister - service, parts, and training

Everything that characterizes good service

Rapid assistance, target-oriented consultation, and reliable inventory of original Putzmeister accessories and parts — all through Putzmeister America and our Putzmeister dealer network.

Designed to support you in the best way possible

We offer ongoing training courses to ensure our service technicians are fully educated, provide a vast information network as well as state-of-the-art equipment, and focus consistently on the needs of our customers.

Our service team and dealers are provided with current technical infomation about your machine, so that we can assist you quickly and efficiently in the event of an emergency, repairs, or preventive maintenance.

Original parts for maximum results

Putzmeister original parts are used because it is the only way to guarantee continuous certified quality. You can be assured that your machine will be able to meet tough site requirements with maximum power and output.

Premium quality and customer proximity

If your machine is experiencing problems, our service team can visit locally or take it to a local dealer. Our dealer repair shops operate in line with Putzmeister's high quality standards.
